

PRICE INCREASE ANNOUNCEMENT

July 28, 2026

10% Effective With Deliveries On or After September 1, 2026

Due to continuing price increases from domestic steel producers, MarinoWARE will implement a price increase of a minimum of 10% on all steel products, effective with deliveries on or after September 1, 2026. Several factors are driving rising steel prices. The lack of import availability due to tariffs, rising transportation costs, increased demand, and strong production utilization are just a few of these factors.

Updated price lists reflecting these changes will be published to all markets prior to the increase. As a reminder, the price in effect at the time of shipment will be the invoice price.

We will honor all quotations activated in accordance with our published quote policy, available at www.MarinoWARE.com/quote-policy. To ensure current pricing, please note that quotes not activated within 30 days of issuance will be reviewed and will be requoted to reflect the new price levels or canceled.

We urge you to review open job commitments with your customers and your MarinoWARE sales representative.

Please do not hesitate to contact us if you have any questions. Thank you for your continued support!

Sincerely,
MarinoWARE
