

---

Dear Valued Customer,

We want to inform you of an upcoming Stealth Access Panels price adjustment that is effective 10/1/2026. This increase (approx. 5.5% to 6.5% Increase) is the result of a significant change in the Alpha Gypsum material procurement market that is outside of our control.

This adjustment reflects rising costs of impacted raw materials and helps ensure we can continue to provide the quality product you expect from us.

If you have any questions or would like to review how this change affects your account, please don't hesitate to reach out to your representative.

We truly appreciate your continued business and partnership.

Sincerely,
